AS 1141.18:2022

This Australian Standard ® was prepared by CE-012, Aggregates and Rock for Engineering Purposes. It was approved on behalf of the Council of Standards Australia on 04 February 2022.

This Standard was published on 25 February 2022.

The following are represented on Committee CE-012:

- ARRB (Australian Road Research Board)
- Ash Development Association of Australia
- Australasian (Iron & Steel) Slag Association
- Australasian Procurement and Construction Council
- Australian Flexible Pavement Association
- Australian Geomechanics Society
- Austroroads
- Cement Concrete and Aggregates Australia — Aggregates
- Cement Concrete and Aggregates Australia — Cement
- Cement Concrete and Aggregates Australia — Concrete
- National Association of Testing Authorities Australia
- University of Technology Sydney

Preface

This Standard was prepared by the Standards Australia Committee CE-012, Aggregates and Rock for Engineering Purposes, to supersede AS 1141.18—1996.

The objective of this document is to define the method for determining the percentage by mass of crushed and uncrushed particles in aggregate derived from rounded gravel.
