Preface

This Standard was prepared by the Standards Australia Committee QR-008, Quality Systems.

The objective of this document is to provide guidelines for the selection of appropriate statistical techniques that can be useful to an organization, irrespective of size or complexity, in developing, implementing, maintaining, and improving a quality management system in conformity with AS/NZS ISO 9001:2016.

This document does not provide guidance on how to use the statistical techniques.

This document is identical with, and has been reproduced from, ISO 10017:2021, *Quality management — Guidance on statistical techniques for ISO 9001:2015.*

As this document has been reproduced from an International Standard, a full point substitutes for a comma when referring to a decimal marker.

Australian or Australian/New Zealand Standards that are identical adoptions of international normative references may be used interchangeably. Refer to the online catalogue for information on specific Standards.

This is a preview. Click here to purchase the full publication.

The terms the appendices or annexes to which they apply. A “normative” appendix or annex is an integral part of a Standard, whereas an “informative” appendix or annex is only for information and guidance.

Contents

Preface ii
Foreword v
Introduction vi
1 Scope 1
2 Normative references 1
3 Terms and definitions 1
4 Statistical techniques in the implementation of ISO 9001 1
5 Quantitative data and associated statistical techniques in ISO 9001 2
6 Applicability of selected techniques 9
7 Description of statistical techniques 9
7.1 Descriptive statistics 9
7.1.1 General description 9
11
11
7.1.4 Examples of applications 12
7.2 Design of experiments 12
7.2.1 General description 12
7.2.2 Benefits 12
7.2.3 Limitations and cautions 13
7.2.4 Examples of applications 13
7.3 Hypothesis testing 13
7.3.1 General description 13
7.3.2 Benefits 14
7.3.3 Limitations and cautions 14
7.3.4 Examples of applications 14
7.4 Measurement system analysis 14
7.4.1 General description 14
7.4.2 Benefits 15
7.4.3 Limitations and cautions 15
7.4.4 Examples of applications 15
7.5 Process capability analysis 15
7.5.1 General description 15
7.5.2 Benefits 16
7.5.3 Limitations and cautions 16
7.5.4 Examples of applications 17
7.6 Regression analysis 17
7.6.1 General description 17
7.6.2 Benefits 18
7.6.3 Limitations and cautions 18
7.6.4 Examples of applications 19
7.7 Reliability analysis 19
7.7.1 General description 19
7.7.2 Benefits 20
7.7.3 Limitations and cautions 20
7.7.4 Examples of applications 20
7.8 Sampling 21
7.8.1 General description 21
7.8.2 Benefits 21
7.8.3 Limitations and cautions 21
7.8.4 Examples of applications 22
7.9 Simulation 22
