engineering professionals

Part 1: General requirements

First published as AS/NZS ISO/IEC 24773:2013.
Jointly revised and redesignated as AS/NZS ISO/IEC 24773.1:2022.

Preface

This Standard was prepared by the Joint Standards Australia/Standards New Zealand Committee IT-015, Software and Systems Engineering, to supersede AS/NZS ISO/IEC 24773:2013, *Software engineering—Certification of software engineering professionals—Comparison framework.*

The objective of this document is to set out the requirements which will be common to all other parts of the ISO/IEC 24773 series, for certifications (schemes and bodies) in the domain of software and systems engineering.

This document is identical with, and has been reproduced from, ISO/IEC 24773-1:2019, *Software and systems engineering — Certification of software and systems engineering professionals — Part 1: General requirements.*

As this document has been reproduced from an International document, a full point substitutes for a comma when referring to a decimal marker.

Australian or Australian/New Zealand Standards that are identical adoptions of international normative references may be used interchangeably. Refer to the online catalogue for information on specific Standards.
