Preface

This Technical Specification was prepared by the Standards Australia Committee MB-025, Security and Resilience.

The objective of this document is to provide guidelines for developing and maintaining business continuity plans and procedures. It is applicable to all organizations regardless of type, size and nature, whether in the private, public, or not-for-profit sectors, that wish to develop effective business continuity plans and procedures in a consistent manner.

This document is identical with, and has been reproduced from, ISO/TS 22332:2021, *Security and resilience — Business continuity management systems — Guidelines for developing business continuity plans and procedures*.

As this document has been reproduced from an International document, a full point substitutes for a comma when referring to a decimal marker.
